GOAT SEMEN

AVAILABLE AT
KAGRC

Improve the productivity, genetics and profitability of your herd with high quality buck (goat) semen from **KAGRC**

SUPERIOR GENETICS
Improved growth & productivity

DISEASE RESISTANCE
Stronger, healthier herds

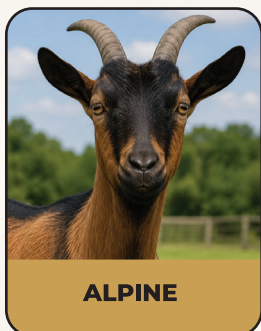

HIGHER PROFITABILITY
Better performance better returns

PROFESSIONALLY PRESERVED
Maintained for maximum quality & fertility

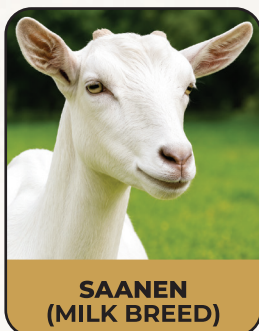

BREEDS AVAILABLE

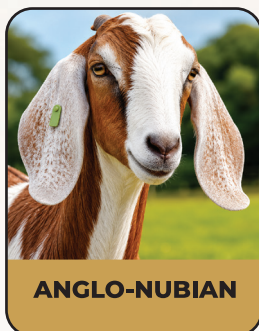

ALPINE

TOGGENBURG

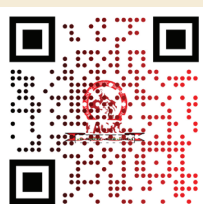

SAANEN
(MILK BREED)

ANGLO-NUBIAN

GALLA
(MEAT BREED)

CHOOSE THE RIGHT BREED

Alpine: High milk production
Toggenburg: Excellent dairy performance
Saanen: Superior milk yield
Anglo-Nubian: Milk & meat dual-purpose
Galla: Fast-growing premium meat breed

SAHIWAL

HEAT-TOLERANT DAIRY BREED
WITH EXCELLENT MILK
PRODUCTION.

RESISTANT TO TICK BORNE DISEASES.
Naturally adapted to local conditions.

GOOD TEMPERAMENT.
Docile and easy to handle.

EXCELLENT CALVING EASE
High fertility and mothering ability.

DUAL PURPOSE BREED.
Excellent milk yield and draught power.

HEAT TOLERANT.
Performs well even in high temperatures.

GOOD QUALITY MILK.
High protein and butterfat content.

HARDY CAN DO WELL UNDER UNFAVOURABLE CLIMATIC CONDITIONS.
Thrives in hot and humid environments.

RESISTANT TO PARASITES BOTH INTERNAL AND EXTERNAL.
Low maintenance and healthier herds.

EXCELLENT FEED CONVERSION EFFICIENCY.
Converts feed into body mass efficiently.

DROUGHT RESISTANT.
Adapts well to scarce water conditions.

BORAN

**HARDY BEEF BREED
RENOWNED FOR RESILIENCE
AND SUPERIOR GROWTH**

Raised primarily for meat production.

High resistance to heat, ticks and eye diseases.

CAN ENDURE
Scarcity of water and can live on low quality feed.

High Fertility.

Has remarkable walking ability.

HERD INSTINCT
Always stay together and defend against predators, thus ensuring high calf survival rates.

GOOD QUALITY BEEF
Tender, lean and well-marbled.

EXCELLENT MOTHERING ABILITY
Feeds and guards her calf against predators and will never allow her calf to get lost in the bush.

DISEASE RESISTANT
Recover faster from foot and mouth disease than exotic breeds and suffer less damaging after effects.

LONGEVITY
Live long and remain productive for well over 15 years, making herd replacement rate very low.

FASTER WEIGHT GAINS
On pasture-based production systems.

EXCELLENT FEED CONVERSION EFFICIENCY
Converts feed into body mass efficiently.

GUERNSEY

PREMIUM DAIRY BREED FAMOUS FOR
RICH, HIGH-BUTTERFAT MILK.

EFFICIENCY

The Guernsey is an efficient converter of feed to milk products.

ADAPTABILITY

The Guernsey cow is adaptable to any climate.

EXCELLENT GRAZING ABILITY

The Guernsey is an excellent grazer and has been developed for pasture-based milk production.

EASE OF CALVING

Good for cross breeding.

EARLY MATURITY AND FERTILITY

Can be bred to calve at around two years of age.

LONGEVITY

Live and produce longer. Moderate temperament.

High Protein and Butterfat Content.

HEALTH PRODUCES

A2 milk that has more health benefits.

HIGH QUALITY MILK

High protein and butterfat content.

EXCELLENT FEED CONVERSION EFFICIENCY

Converts feed into body mass efficiently.

AYRSHIRE

HARDY DAIRY BREED VALUED FOR ADAPTABILITY AND HIGH-QUALITY MILK.

ADAPTS EXCEPTIONALLY WELL TO EXTREME TEMPERATURES.

DOCILE & PLEASANT TEMPERAMENT
Easy to handle and manage.

LONGEVITY & DURABILITY
Have great longevity.

DISEASE RESISTANT
Excellent resistance to diseases; cases of mastitis and dystocia (difficult calving) are very low.

HIGHER NUTRITIONAL VALUE
Highest protein and butterfat content compared to other breeds.

FEED EFFICIENT
Have efficiency in converting grass to high quality milk at low cost (produce more milk on less feed).

SHORT CALVING INTERVAL
Improves productivity and herd efficiency.

SCAN ME

FRIESIAN

**WORLD-RENOWNED DAIRY BREED
KNOWN FOR EXCEPTIONAL MILK
PRODUCTION.**

GOOD FERTILITY

They exhibit good reproductive performance under proper management and nutrition

EXCELLENT DAIRY CONFORMATION

They have well-attached udders, strong feet and legs and a strong well-balanced body structure

EFFICIENT & PRODUCTIVE

Friesians are efficient converters of feed into milk, making them highly productive and economical

ADAPTABLE & RESILIENT

They adapt well to different climates and management systems with proper care and nutrition

HIGH MILK PRODUCTION

Friesians are globally renowned for their outstanding milk yield and excellent milk quality

RC GENE (RED-AND-WHITE CARRIER)

Some Friesian bloodlines carry a recessive gene for the red-and-white coat color. It is denoted as 'RC' on the catalogues for sires that are carriers.

LONG PRODUCTIVE LIFE

Friesians remain in production for many lactations, ensuring sustained returns to dairy farmers

JERSEY

**EFFICIENT DAIRY BREED
PRODUCING RICH,
HIGH-BUTTERFAT MILK.**

GOOD TEMPERAMENT

Jersey cattle are generally quiet and docile, Reports of aggression are often mistaken for curiosity and strong mothering ability

ADAPTS

EXCEPTIONALLY WELL
To Extreme temperatures

LONGEVITY & DURABILITY

Have great longevity

DISEASE RESISTANT

Excellent resistance to disease, cases of mastitis and dystocia (difficult calving) are very low.

DOCILE & PLEASANT TEMPERAMENT

Easy to handle and manage.

EARLY AGE AT FIRST SERVICE

The ideal calving interval is 365 days. Any shorter might be a sign of good fertility but affect lactation of 305 days. Age at first calving will ensure the cow gets to its peak production as a young animal and ensures more productivity

HIGHER NUTRITIONAL VALUE

Highest protein and butterfat content compared to other breeds

FEED EFFICIENT

Have efficiency in converting grass to high quality milk at low cost (produce more milk on less feed)

MAGIC 50

**SUPERIOR COMPOSITE BREED
COMBINING PRODUCTIVITY,
RESILIENCE, AND ADAPTABILITY.**

SUPERIOR COMPOSITE BREED

Superior composite breed combining the best dairy and dual-purpose genetics for high productivity and adaptability.

HIGH MILK PRODUCTION POTENTIAL

High milk production potential with desirable milk components, excellent feed conversion efficiency, and improved farm profitability.

TOLERANT & RESILIENT

Highly fertile and resilient, with strong tolerance to tick-borne diseases, heat stress, and other tropical production challenges.

STRONG FEET & LEGS

Strong feet and legs make it suitable for both semi-intensive and extensive production systems across diverse environments.

EXCELLENT MATERNAL & GROWTH TRAITS

Excellent maternal and growth traits, with daughters showing good mothering ability and bulls exhibiting strong growth and weight gain.
